- Figma, Adobe XD, Balsamiq, Photoshop, Visio
- HTML, JavaScript, CSS, Sass, ReactJS, AngularJS, Ionic
- Digital Accessibility (WCAG 2.1 AA), Design Systems (Carbon, SparkUI)

## Professional Experience

### **2021 – Present | Bosch – UX Designer & Front-end Developer**

Developed global web applications using AngularJS, Sass and SparkUI. Created high-fidelity prototypes in Figma and Adobe XD. Produced UX documentation and mentored interns.

### **2019 – 2021 | IBM – UX Designer & Front-end Developer**

Built international applications with ReactJS and Sass using the Carbon Design System. Introduced new features with strong UX focus.

### **2018 – 2019 | MGCON – Front-end Developer**

Developed traffic control systems for the public sector using Laravel, Google Maps and JavaScript. Delivered robust applications with dynamic maps for decision-making.

## **2017 – 2018 | Bild – System Analyst**

Gathered business requirements, produced technical documentation, optimized outsourcing processes, reducing costs and accelerating internal projects.

## **2014 – 2017 | Adekz – UI/UX Designer & Front-end Developer**

Designed and developed websites, platforms and mobile apps with AngularJS, Cordova and Ionic. Delivered 30+ projects with reduced delays and improved client satisfaction.

## **2013 – 2014 | MGCON – Full-stack Developer**

Standardized development processes with CodeIgniter, Bootstrap and MySQL, improving code consistency and performance.

## **2012 – 2013 | Agência Arkus – Front-end Developer**

Created interactive websites and landing pages using WordPress and jQuery.

## **2011 | Agência WebAlvo – Intern – Web Developer**

Developed OOP systems for education and retail sectors with PHP and MySQL.

## **2009 | Softmaster On-line – Intern – Web Developer**

Created one of the first online buffet platforms with automated budget and invitations system.
